Missing or Broken Teeth?

- 3-D Imaging and Design keeps your Implant needs under one roof
- No more dentures with teeth in ONE Day

Embarassed by Your Smile?

- Invisalign & Rapid Cosmetic Braces
- Porcelain Veneers

**AVOIDING
THE DENTIST?**

Wake up to new teeth in one day, without having dentures

7 REASONS WHY SO MANY ARE CHOOSING...

1. NO LECTURES OR JUDGMENTS, EVER!

No matter how long it has been or whatever the condition of your mouth, you can rest assured there will be no lectures and no judgments, just a plan to get you smiling again!

2. WE GUARANTEE YOU WILL LOVE HOW YOUR TEETH LOOK AND FEEL.

While guarantees in health care are rare, we promise that your new smile will look good AND feel good.

3. YOU WILL DISCOVER A PLAN.

If you're tired of patchwork, piecemeal dentistry, we can promise you a plan that will avoid excessive cost, inconvenience, embarrassment and pain for your lifetime!

4. FORGET YOU ARE EVEN IN THE CHAIR!

With sedation, Dr. Vuong can ensure your comfort, with little to no memory of the entire procedure for most patients.

5. COMBINED EXPERTISE OF DOCTORS WHO PRACTICE DENTISTRY, AS WELL AS TEACH OTHER DENTISTS.

Dr. Vuong performs complex dentistry full time. Not only is this his passion, but Dr. Vuong travels around the US to take countless hours of continuing education, ensuring the most up to date treatments.

6. ADVANCED TECHNOLOGY MEANS MODERN TREATMENT OPTIONS.

With 3-D cone-beaming imaging, digital x-rays, digital 3-D printing and precise digital dental impressions, you will know that your care is benefiting from the latest technology.

7. FLEXIBLE PAYMENT OPTIONS

With interest-free financing options, a Dental Savings Plan for those without insurance and even extended payment plans, we know we can help you afford the care you want.

3. Meet Our Dentists

Combining experience, expertise and new technology to make visits even easier.

4. Missing or Broken Teeth?

If you suffer from missing or broken teeth, state-of-the-art technology allows the replacement of missing teeth to be faster, safer and more minimally invasive.

6. Avoiding the Dentist?

If you're afraid of going to the dentist - or haven't been to the dentist for years - see how so many others have overcome their fear.

7. Real Stories from Real Patients

Patients share their experience with Dr. Vuong.

8-9. Embarrassed by Your Smile?

Get your confidence back with a beautiful new smile.

10. Technology

Find out how your care is benefiting from the latest technology.

11. Don't Take Our Word for it

See what patients (and even other dentists!) have to say about Dr. Vuong.

MEET THE DOCTOR

Dr. Patrick Vuong earned his dental degree from the Western University of Health Sciences, College of Dental Medicine in the city of Pomona, CA. During his tenure at the Western University, he held a number of dignified positions. Some of them are as follows.

Vice President of the *Vietnamese Health Association*. Treasurer of the *Delta Sigma Delta International Dental Association*.

Along with studies, **Dr. Vuong** was an avid participant in extracurricular activities as well. Every year he organized the following activities:

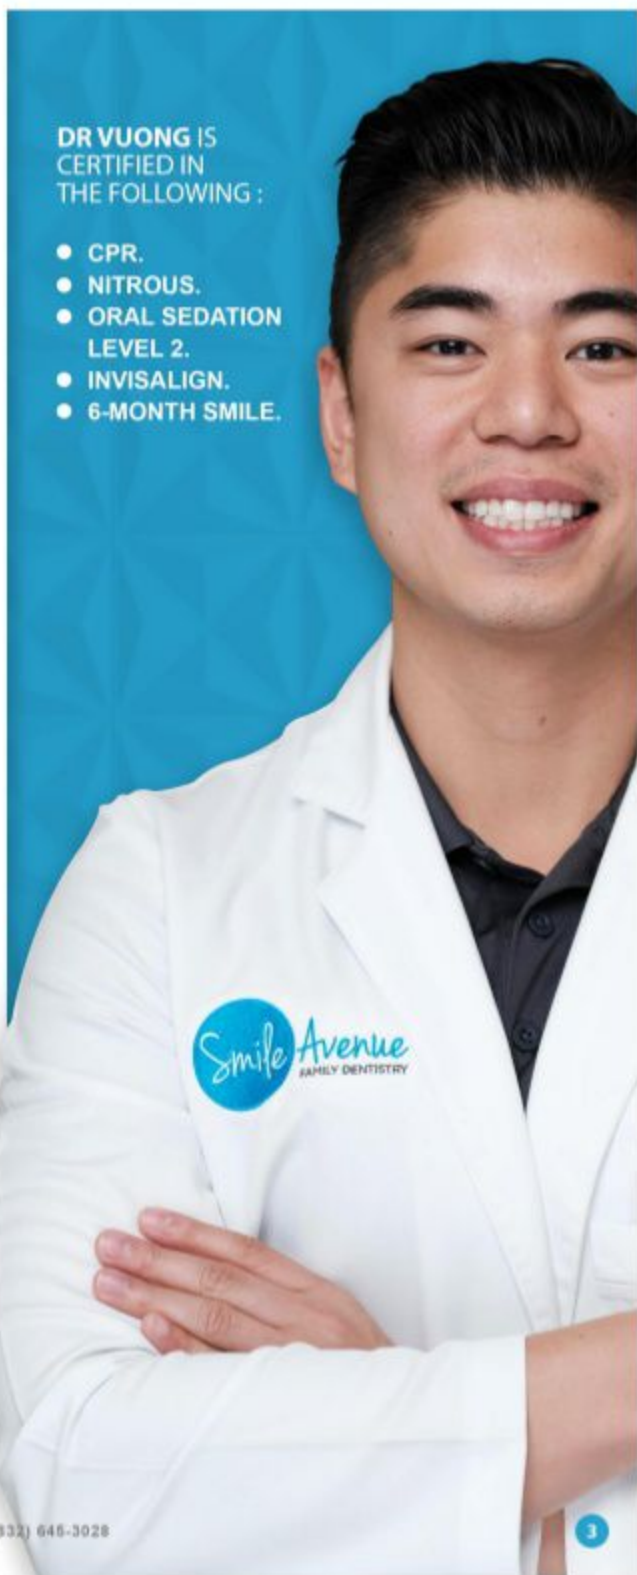

- Inter-Professional Multicultural Functions.
- California Association of the Vietnamese-American Special Olympics.
- Give Kids A Smile Program.
- Riverside Student-Run Health Clinic Mission.
- Mission Trip to Peru.

Dr. Vuong is now an inspiration to many budding dentists and is currently serving as the acting Vice President of the Houston Asian American Dental Society (H.A.A.D.S). His principal duty involves training and educating the upcoming dentists in Greater Houston and its surrounding areas.

Dr. Vuong's has a strong dedication towards his profession and regularly visits dental study clubs and attends seminars. He firmly believes that dentistry is not just a job, but a passion to take care of the oral health of the people. This is why he leaves no stones unturned in keeping himself updated about the latest proceedings in the field of dentistry.

**DR VUONG IS

- 6-MONTH SMILE.

MISSING OR BROKEN TEETH?

STATE-OF-THE-ART TECHNOLOGY AND TECHNIQUES MAKE IT EASIER THAN EVER TO REPLACE MISSING AND BROKEN TEETH.

Do any of the following relate to you?

- You have dentures but **HATE** wearing them. Maybe they slide around, maybe you are tired of not being able to taste food, or maybe you are tired of worrying about your dentures falling out around other people.
- **YOU ARE EMBARRASSED TO SMILE IN PUBLIC.** You may have missing or broken teeth, or simply have had several crowns that aren't the same shape, size or color done over the years by different dentists.
- You have lost one or two teeth over time. It's harder to chew the foods you love, and you think twice about smiling in public or in photos.
- You are in constant pain, having a hard time chewing from old crowns, fillings and teeth that are breaking down and

THE GOOD NEWS: You can **FINALLY** have a mouth full of teeth that look and feel natural and can turn back the clock on your teeth and get your smile and confidence back.

When Ken decided to restore his missing and broken teeth with dental implants, he chose **Dr. Patrick Vuong**

"For many years, I had dealt with my teeth.... Finally I got to the point where I felt like I really ought to try to do something before I was left with some real problems, and that's when I decided that I needed some serious repair done," says Ken.

With the aid of 3-D technology, Dr. Vuong was able to begin to plan Ken's new teeth with more precision and less guesswork than ever before.

"With our 3-D software and planning process, I can know the exact location of teeth and nerves and know exactly what needs to be done for the most minimally invasive procedure," says Dr. Vuong.

Minimally Invasive and Safer Than Ever Before

Cone-beam CT technology allows Dr. Vuong to capture three-dimensional images of the teeth and jaws that are extremely accurate, allowing precision planning of implant surgery and restoration.

In addition to the use of 3-D cone-beam technology and software, Dr. Vuong also utilizes 3-D printing to provide guided implant surgery.

Guided surgery means less time, less discomfort and even less cost.

"With guided surgery, I know I can help patients to have as little time in the chair as possible, provide minimal to no discomfort, be safer than ever before, and even significantly reduce costs in most cases," say Dr. Vuong.

For patients missing one or two teeth, this procedure replaces a missing tooth with an artificial tooth that is much stronger than a dental crown.

The best part is that these artificial teeth look just like your natural teeth — nobody will even know you had the procedure done! Patients with implants can also rest assured that the implants often last a lifetime when properly maintained with adequate brushing and flossing.

WHO IS A CANDIDATE FOR DENTAL IMPLANTS?

"MOST PATIENTS ARE SURPRISED TO LEARN THAT NOWADAYS, MOST EVERYONE IS A GOOD CANDIDATE FOR IMPLANTS," ACCORDING TO DR. VUONG. DURING AN INITIAL CONSULTATION, PATIENTS CAN FIND OUT AND DISCUSS ALL TREATMENT OPTIONS, INCLUDING SEDATION OPTIONS. PATIENTS FIND THAT THESE OPTIONS ARE COMPLETELY COMFORTABLE, WITH MANY HAVING LITTLE TO NO MEMORY OF THE PROCEDURE ITSELF. FLEXIBLE AND CONVENIENT PAYMENT OPTIONS ARE ALSO AVAILABLE, AND SOME PROCEDURES ARE OFTEN COVERED BY INSURANCE.

For patients missing multiple teeth, Dr. Vuong provides several treatment options for replacing multiple, most or even all your teeth across four to six dental implants — providing a fresh start and a second chance at having beautiful, strong, natural-looking teeth again. **Even in a single day.**

"I wanted to improve my life and improve my appearance, and I feel like that's what was accomplished with Dr. Vuong." *Implant Patient Ken*

"To be honest, I was living in a lot of pain, and it was important for me to have a beautiful smile again. Now, after all these implants, I have a lot more confidence in myself. I would tell people who are sitting at home, afraid to come into the dentist, that this is 100% the place to be. Dr. Vuong will 100% take care of you. His staff will make every possible effort to make it easy for you, and you need to get it done because it's worth it." *Christina*

HAVE YOU BEEN AVOIDING THE DENTIST?

SEDATION DENTISTRY MAKES GETTING BACK IN THE CHAIR POSSIBLE FOR HUNDREDS OF PATIENTS.

If you would rather endure the agony of a cavity or a toothache than step foot into a dentist's office, or the thought of a simple teeth cleaning makes you squirm, you need to know about sedation dentistry.

If you're afraid of going to the dentist - or haven't been to the dentist for years - then you're not alone. The latest statistics show that up to 40% of Americans put off having the dental care they need because of fear and anxiety.

The good news is that we can help you. Dr. Vuong has helped thousands of patients who were also nervous about dental treatment. With sedation dentistry, patients can finally relax in the dentist's chair and get the dental work needed done, often in just one or two appointments.

Dr. Vuong is one of very few dentists who is qualified to give oral sedation for all procedures, extensive or minor.

"With sedation dentistry, I know that I can help patients get the care they need, while also being completely comfortable."

Dr. Patrick Vuong

Options for sedation dentistry include nitrous oxide (laughing gas) for lighter sedation. Minimal sedation can also be achieved by taking a pill before the appointment.

Dr. Vuong also offers sedation dentistry every day - allowing people who are afraid of going to the dentist to get the dental work they need pain free and with little to no memory of the procedure itself.

"Not only do we offer sedation dentistry, but we also promise no lectures or judgment ever. I know this helps us treat even the patient who says, 'I hate going to the dentist.'"

Sedation dentistry is perfect for you if:

- YOU HAVE A VERY LOW PAIN THRESHOLD
- YOU CANNOT SIT STILL IN THE DENTIST'S CHAIR DURING A PROCEDURE
- YOU HAVE A BAD GAG REFLEX
- YOU HAVE YEARS' WORTH OF DENTAL WORK THAT NEEDS TO BE COMPLETED
- YOU HAD AN EXTREMELY PAINFUL EXPERIENCE OR BAD DENTAL EXPERIENCES IN THE PAST

REAL STORIES FROM REAL PATIENTS

"I was the patient who was crying in the car..."

The first time Ashley made the drive to see Dr. Vuong, she had not been in a dental office for some time. "I had not been to the dentist probably for eight years prior to coming to Smile Avenue Family Dentistry. I am the patient who was crying in the car and did not want to come in these doors whatsoever," says Ashley.

"But once I came in here, the staff was so warm and friendly and Dr. Vuong was very sincere with the fact that he would take care of me, and he does wonderful sedation, which can get you through anything, any procedure here whatsoever."

When asked about that first appointment, Ashley went on to say. "So, the first time I cried in the chair, but afterward, I couldn't believe it. Now, after these 10 implants, I have no problems coming here. It's like going shopping almost now. And the best part is, you go to sleep and you wake up and it's all over."

When asked about why she decided to have her smile restored, Ashley said, "I'm turning 40, and you know, 40 wants to be 20 again, so I felt that it was time. And to be honest, I was living in a lot of pain, and it was important for me to have a beautiful smile again."

"Prior to getting all of my dental work done with Smile Avenue Family Dentistry, I would hide my smiles, but now I love my smile...."

"Prior to getting all of my dental work done with Smile Avenue Family Dentistry, I would hide my smile, but now I love my smile and I have a lot more confidence in myself. I would tell people who are sitting at home, afraid to come into the dentist, that this is 100% the place to be. Dr. Vuong will 100% take care of you. His staff will make every possible effort to make it easy for you, and you need to get it done because it's worth it."

EMBARRASSED BY YOUR SMILE?

IF YOU CONSTANTLY HIDE YOUR SMILE BECAUSE YOU'RE EMBARRASSED BY YOUR TEETH, YOU SHOULD KNOW THAT MODERN TREATMENT OPTIONS COMBINED WITH THOUSANDS OF CASES OF EXPERIENCE MAKE IT EASIER THAN EVER BEFORE FOR DR. PATRICK VUONG TO HELP REBUILD SMILES (AND CONFIDENCE).

According to Dr. Vuong, "I think many of our patients have carried around the burden or embarrassment of their teeth for such a long time. Maybe they didn't know anything could be done, or maybe they were afraid of ending up worse off or of the expense." For many patients, that embarrassment is something they have endured for years and has held them back in social situations.

In some cases, it may be a mouth full of mismatched teeth from old fillings, dental crowns and bridges. In other cases, crooked teeth, gapped, yellow or stained teeth are to blame.

Whatever the reason, Dr. Vuong has helped many patients get their smile back so they can:

- FEEL CONFIDENT IN SOCIAL SITUATIONS – INCLUDING AT WORK, WITH FRIENDS AND FAMILY, AND IN THEIR DATING LIFE.
- NOT FEEL SELF-CONSCIOUS EVERY TIME THEY SMILE, OR WORRY ABOUT GETTING AWKWARD GLANCES TOWARD THEIR MOUTHS.

The good news is you don't have to put up with ugly or embarrassing teeth anymore. There are many modern ways to improve your smile for business and social reasons, or even for special occasions like a wedding or anniversary.

Before

After

"Enhancing the beauty of my six front teeth has transformed my smile and my life opportunities. No discomfort at all. First time I can say that in over 50 years of going to the dentist. Dr. Vuong and his team are all fabulous. Imagine how you are going to feel when you look like a movie star or you look in the mirror, loving those pearly whites. It's going to make you smile more than ever, promise. On a 1-to-10 scale, Dr. Patrick Vuong is off the chart."

BEFORE AND AFTER ALL-CERAMIC CROWN AND VENEERS TREATMENT WITH DR. PATRICK VUONG, DMD

BEFORE AND AFTER ORTHODONTIC TREATMENT WITH DR. PATRICK VUONG, DMD

Dr. Patrick Vuong, DMD use Invisalign treatment to help patients achieve straight teeth without ever wearing braces.

THANKFULLY, TECHNOLOGY HAS ADVANCED TO THE POINT THAT IT IS POSSIBLE TO STRAIGHTEN TEETH USING A CUSTOM-MADE SERIES OF ALIGNERS CREATED FOR YOU – AND ONLY YOU. THE TRAYS ARE MADE OF SMOOTH, COMFORTABLE AND VIRTUALLY INVISIBLE PLASTIC. THERE ARE NO METAL BRACKETS TO ATTACH AND NO WIRES TO TIGHTEN. YOU JUST WEAR A NEW SET OF ALIGNERS EVERY TWO WEEKS UNTIL YOUR TREATMENT IS COMPLETE.

"One of the things I love most about Invisalign is that patients can straighten their teeth without most people even knowing. Our adult patients love this."

Dr. Patrick Vuong, DMD

ALL-CERAMIC CROWNS AND VENEERS

"With the materials we have today, I know that we can make teeth that look amazing, life-like, and actually make the teeth even stronger."

Dr. Patrick Vuong, DMD

ADVANCED TECHNOLOGY

MODERN METHODS AND TECHNOLOGY ALLOW BETTER RESULTS, WITH LESS TIME AND EXPENSE.

Dr. Patrick Vuong, DMD utilizes state-of-the-art technology to make visits more comfortable, reduce the amount of time spent in the dental chair and even achieve far superior results than ever before.

3-D X-rays

The use of a 3-D cone-beam CT scanner allows the doctors to obtain a 360-degree, three-dimensional view of the mouth and jaw, with very low radiation. This means better diagnosis and less invasive surgery.

Digital X-Rays

Digital X-rays mean no more waiting time for X-rays to develop, and they result in 74% less radiation than the nondigital method. No chemicals are used, which also makes it a pollution-free process.

3-D Printing and Guided Implants

Utilizing 3-D printing combined with cone-beam technology allows for minimally invasive implant surgery, with less time and discomfort than ever.

YOUR COMFORT IS IMPORTANT TO US

Smile Avenue Family Dentistry

Lety V.

"Amazing!! First visit here and from the moment you walk in it's definitely worth it, the staff is so friendly, great and knowledgeable in everything they do and explain all aspects. It felt like I was at a spa! Warm pillow, noise cancellation headphones while watching TV and getting my teeth worked on, what a great experience and way to treat patient's to make them feel as comfortable as possible. I highly recommend and will be switching my family's dental needs to Smile Avenue."

Chance H.

"Very friendly and knowledgeable. They are open later on certain days which works well with my schedule. I need major dental work done and they put together an affordable dental plan for me. I would highly recommend Smile Avenue Family Dentistry."

Edward T.

"This place is top notch. So appreciative of the attention I received. The staff is super friendly and accommodating and Dr. Vuong is the BEST. He is so informative and proactive, and truly demonstrates a passion and an art for his work. Highly recommend this dental office!"
